25427 to 25438

## CAUTION

Many letters containing cheques have been abstracted from letter boxes, the amounts of the cheques altered, and the crossings taken out because they were imperfectly made. To prevent this, the amount should be written in words as well as in figures, and no space should be left where additional words or figures might be inserted. Further, wherever possible, cheques with printed crossings should be used for transmission through the post, but where this is not practicable, particular care should be taken to cross the cheques plainly in black ink, and the crossing should extend right across the face of the cheque.

As a safeguard against fraud a new Cheque Book will be delivered only on a printed Order Form contained herein being signed by the Customer.
